NOTRE DAME ALMOST SURE TO MEET CALIFORNIA NEW YEAR'S DAY

TO PASADENA

Coach Rocknes's Unbeaten Eleven Should Prove Big Attraction for Tournament

By William Abbott.

angements are about complete Notre Dame, ranked as the agest forward passing eleven in country, to meet California durthe Tournament of Roses, New Year's Day, at Pasadena. Notre Dame was picked as the strongest opponent after Harvard, Yale and Princeton refused invitations to journey across the Continent, and Cornell discovered that faculty ruling would not allow the Big Red team to play a post season game.

For the last ten days negotiations have been going on between California and Notre Dame. So much progress has been made that it is only a eather of a few hours before the forannouncement will be made of the two colleges meeting on the grid-

With about 2.066 students, Notre Dame, at South Bend, consistently turns out winning teams. In the last three years only one game has been lost. This was a close battle, that Iowa, winners of the Western Conference, captured early

in the 1921 season. This year Coach Rockne had to fill the places of George Gipp, outstand-ing star of the 1920 season, and sev-eral other unusual players. There wasn't any noticeable change. Notre Dame continued its winning streak. Coming East the South Bend eleven waffoped West Point 28 to 0, and three days later overwhelmed Rut-

gers, 48 to 0. The ability of the new Notre Dame to manipulate forward passes drew admiration from many other coaches.
Hell Roper, Princeton coach, said Rockne had made the most progress with the overhead system. Most of the passes, both long and short, go to Kiley and Anderson, the ends, who are basketball stars, and whose training on the court is invaluable handling a pigsidn. Johnny Mahardt, who took the late George Gipp's place, throws most of the passes, which are cleverly made from three different formations.

In addition to its passing game

Notre Dame has a powerful running offense, which starts from a peculiar shift. The team, as a unit, is remarkably speedy, even the linesmen, who handle themselves like sprinters. Coach Rockne has been careful not to build up a team that only possesses effensive strength. No set of oppo-ments in recent years has been able to gain consistently through the South Bend eleven.

is th plan of Coach Rockne to take his team out to California far enough ahead so that all members of the squad may become accustomed to strange conditions. New Year's Day in California is generally warm enough for football fans to come to the game in white flannels, but the air is dry and the players do not particularly feel the heat.

Two years ago Harvard made the long trip across the continent and tackled Oregon, which won the Pacific Coast title. It was a bitter battle, the Easterners winning, 7 to 6.

Last year Ohio State, winners of the Western Conference, journeyed out to the Coast. With the sam went 600 rooters who begged he natives to back their team at inviting odds. Ohio State was considered a first class

to back their team at inviting odds. Ohlo State was considered a first class forward passing combination, but it was quickly outclassed by the Californians, who tossed the ball 55 yards as though it was a baseball.

On one play the surprised Buckeyes permitted Mueller, California's starend, to pass far behind their secondary defense. The next thing the visiters knew Mueller had caught a pass—nearly sixty yards and calmly trotted unmolested for a touchdown. California, excelling at every depart-California, excelling at every department of the game, defeated Ohio State 28 to 0. This was a terrible shock for football in the Middle West. Bariy this season California was badly crippled with injuries. At one timb it seemed the 1920 champlons would not be able to repeat, but Coach Andy Smith, a former Pennsyl-yania player, patched up his cripples and proceeded to mop up all oppo-

Nowadays a brilliant backfield man is just as apt to be found in the hogg Kentucky Mills as at a great institution like Harvard.

Countiess numbers of men, who started in life with youthful strength and vigor, determined to win, find themselves today on the verge of a physical and nervous breakdown, simply because they did not keep their nerve and brain cells filled with nerve force. In the mad race for success, they have allowed long bours, worry and overwork to drain from their nerve and brain cells that wonderful life giving fluid called "Nerve Force." Without plenty of nerve force, you lose your magnetism, force and courage, you feel your own weakness and others know that you are weak. The moment you enter an office to apply for a position, or try to sell goods, or put through a business deal of any kind, the man opposite you instinctively feels and knows that you are a weak character, and you are therefore doomed to fallure, while the strong, courageous forceful, magnetic man, with plenty of nerve force in his nerve and brain cells, successfully faces and overcomes every obstacle and difficulty and goes on to great success in life, while you may sit, a nervous weakling, bemoaning your fate.
